LED Floodlight Billboard

The Bailey Lights LED Floodlight Billboard AS is also called display fixture, wall wash or billboard lighting. If you can beautifully illuminate a billboard, you can illuminate facades, shops or other outdoor objects just as beautifully with this concentrated asymmetrical light beam (130°x50°). The aluminum housing (available in black and white) has a special coating (AkzoNobel) and is corrosion resistant. This LED floodlight is IP66 classified and CLII double insulated. The integrated wall support with arm is 50cm and can be turned 90° and is 360° rotatable. Available in the light colors 3000K and 4000K (1800 and 1950 lm respectively). Very easy to assemble.
