

Sheet 150 - Dynasty Low voltage LED series

version 02/10-2

The new Dynasty LED series has achieved what many lighting designers thought was not possible. Our lighting engineers finally managed to replace their quality incandescent filaments with a new unique and patented LED package.

This very compact removable LED package has a multi directional beam pattern. This results in a 360 degrees horizontal and 275 degrees vertical light beam. Our new Dynasty LED series will have a similar look and feel as the incandescent lamp.

Applications to replace:

- Marine and navigation lamps
- Amusement park lamps
- Caravan and camper vehicle lamps
- Train and wagon lamps
- Design and decorative lamps
- Signs and scoreboard lamps
- Traffic, obstacle and buoy lamps

Benefits:

- RoHS compliant
- Long life
- Available in multiple shapes and bases
- Energy efficient
- Custom made from 10 pieces!

Features and specifications:

- Shock and vibration resistant
- High Lumen output
- Unique Light Beam™
(360° Horizontal, 275° Vertical)
- Removable LED package
- Operates on 7-28 Volt DC systems
- Available in colour: white, warm white, red, orange, blue, green and yellow
- Superior performance in outdoor environments, sealed for life
- No fragile parts
- Same look and feel as the incandescent lamp
