

FLEDLIGHT

LED fixtures

The FLEDLIGHT is a series LED fixtures, which shows remarkable features because of a smarter combination of existing technologies. The FLEDLIGHT uses less energy, less material and lasts longer than the available LED-lamps in the current market.

Besides the FLEDLIGHT is vandal proof, the LEDs and power supply are replaceable and a long life time is guaranteed. By this an optimum is reached for the total-cost-of-ownership and durability.

Bailey number	Description	LxWxH (mm)	Wattage	LED Qty	
91101829686	FLEDLIGHT FL33-NW-i9-CABA	300x300x37	9W	36	IK10

Specifications

- Colour: White 4.000K
- Optional: emergency unit
- CABA: Prisma Polycarbonate cover - RVS border - white coating aluminium housing - no coating border
- BABA: Polycarbonate cover - RVS border - white coating aluminium housing - no coating border
- ABBB: Prisma Polystyrene cover - aluminium border - white coating aluminium housing - white coating border
- IP value: IP54 (dust and splash proof)
- IK value: IK10 (impact/shock resistant)
- Life time: > 150.000 hours
 - **L70: lumen maintenance of 70%**
 - **Ta=55 C: maximum ambient temperature of 55°C**
- Power factor: 0.95
- Guarantee: 3 years

Applications

- Elevators
- Offices / Warehouses
- (Parking) garages
- Care settings
- Public places
- Cold / freezer rooms
- Galleries (flats / apartments)
