tOpO transformers

Discover the Bailey tOpO series: compact, flexible, and powerful electronic transformers that fit perfectly into small spaces such as suspended ceilings. With 0W start-up, they are ideal for LED – without any minimum load – and suitable for both 12V LED and 12V halogen.

The tOpO is dimmable with both trailing-edge and leading-edge dimmers and easily replaces traditional halogen types:

- Mini 50W | 30W LED
- Jerry 70W | 45W LED
- Mighty 105W | 70W LED
- Little 50W | 20W LED

And of course, recognizable in the iconic Bailey green. Small in size, big in performance.
